New Munitions Plants

Announcement That Twelve Will Be Built In Canada

Munitions Minister Howe announced the immediate construction of 12 munitions plants at total cost of approximately \$10,000,000. This is in addition to the \$17,000,000 plan for manufacture of chemical explosives for personnel and munitions recently.

Largest of these plants will be at "Winnipeg," in Western Canada, where existing facilities are being extended to produce a large tonnage of ammonium and ammonium nitrate. Work has also begun on a plant to produce the chemical units in making smoke screens. It will be in operation in about four months. Work has started on a plant for the production of plant manufacturing of bombs which will be completed in six months, and another plant will produce chemicals required in production of gas masks. The Minister said one plant will produce thousands of special glass and fire control lenses and the capacity of the three gun plants in Toronto is being doubled.

Capacity of two gun plants—now producing anti-aircraft bombs—will be doubled. Complete field guns—also being doubled.

Two firms at present producing anti-aircraft bombs will be added to the list of munitions plants manufacturing while the anti-aircraft plants are being expanded. In present production, guns, production of 200 trucks daily for greater productive capacity of munition carriers.

Some of these expenditures are for munitions account. The others are carried out under the supervision of the Department of Munitions and Supply.

All told, the Minister said, plant and equipment under construction in Canada and financed in whole or in part by the two governments amounts approximately \$10,000,000, involving about 50 firms. The estimated production from these plants will run to well over 100,000,000 annually.

Of the 12 new plants will increase substantially the capacity of Canada to produce war material and will suggest a munitions plant in that program which already includes two explosive plants, equalling in size any development in the world. In the Empire, a large shell-filling plant and a large anti-aircraft plant, Mr. Howe said.

Jobless Man With Family Makes Return Trip To Alaska

Paul Satko's escape from a world skeptical of his attempt to win him a possible return to Alaska after his gain at 49 with his wife and seven children has been completed in June, Alaska.

The jobless former Richmond, Va., writer and machinist, who had been in his home-made "ark" after a three-month voyage of struggle from Tacoma, Wash.

Almost at once came an opportunity. The Alaskan Expedition, which offered him a steady job at three years on its 96-acre farm where he would care for its farm implements.

His arrival ended a three-year dream. The Satkos moved every penny with which to buy materials for their funny boat. They traveled by ship across the United States and finished it on Puget Sound. In it they initiated a 14-year-old automobile.

Coming across the country, people pointed them out, shouting: "Look at Noah and his ark."

And the "ark" it became. In Seattle he was arrested, held in court and told his boat was unserviceable. But the trip would be made.

With his nine children, But Satko's wife and seven children, he sailed in his marine motorboat, overcame the perils of sea and weather, and in June, he and his wife and seven children arrived in Alaska. Latest Budget

In Given Very Appropriate Name By London Merchant

The budget was described as the most meagre in the history of Britain. It will affect every householder and the "shiny new budget" was described by a London writer as "a budget for a London wretch."

Businessmen predicted people would be forced to live more simply and save very few clothes and jewels. Women would have to wear simpler dresses. The new 21½ cent. sales tax, which on the whole value of luxuries and 14½ cent. on necessities, will affect those who buy clothes, shoes and books, with children's clothes and shoes, and the new 14½ cent. tax on tobacco will affect those who buy into it.

Published A Paper

"Mighty Sun" Issued By British Troops While In Norway

British troops fighting the Germans in northern Norway had time to publish at least one issue of a newspaper. "The Mighty Sun," was revealed when a copy reached New York from England.

The paper, dated May 15, was the first—also perhaps only—issue and contained news items, jokes and satirical poetry, as well as a "Hello and Goodbye" forwarded from the then British Commander Maj-Gen. Philip Bergh Mackay.

"Apparently Mackay was not recalled to England or was just then preparing to withdraw his troops and their French and Polish allies. The sun was a 4-column, 4-page tabloid edited by Canon J. C. P. Hood. Among its items was one: 'Good news! Here is the way.'"

Use In Industry

Diamonds Break Out Of Their Hard-ness Means Good Tools

About 75% of all the diamonds mined are not worn on fingers, or necks, or brooches, or ears or hair, or wrists; they are used industrially. Says John C. Kirkwood, of the New York State Museum.

The diamond is a very hard material. It is used in the manufacture of cutting tools, and in the manufacture of grinding wheels. It is also used in the manufacture of high-speed steel.

Local and District

Mr. and Mrs. F. W. Benson are spending the summer on their farm near Vidler.

Mr. and Mrs. H. F. Crowell were visitors in Calgary and Banff during the past fortnight.

E. A. Thompson and D. H. Campbell were visitors in Calgary by car for a few days last week.

The C.N.R. is putting on a barn fair August 13th and 14th. See mat, in another column.

Miss Ruth Campbell, assistant at the post office, is spending a vacation at her home in Richards.

Miss Christine Peterson returned to Calgary last week, where she is visiting with Mrs. Frank Walker.

Leslie Stephenson, Town Clerk, left the first of this month by car for four weeks' vacation at Vancouver and points west.

Miss Jean MacDonald has returned from a visit at the farm home of Mr. and Mrs. A. K. McDonald, north of Delia.

Bill Curtis, veteran of the first Great War, is a recent recruit from this district to join the Calgary Highlanders for service overseas.

Theresa broke into the Calgary Post Office one night last week, and blew the safe, taking bills and checks to the amount of \$1,800.

Miss Marguerite Fitzmaurice, nurse-in-training at the General Hospital, is spending a two weeks' holiday at her home in Delia.

A. R. McTeach, B.O. Graduate Optician, will visit Dr. Gordon Ouellette, on Thursday p.m., Aug. 15. Complete, dependable eye-sight service and repairs.

Charles Price, C.N.R. relieving agent, left the latter part of last month for Edmonton, Alta., following the return of E. M. Bigelow, from his month's vacation.

Mr. and Mrs. Herbert Collett and little daughter Vera, of Calgary, were recent visitors at the home of Mr. and Mrs. Roy Lindsay, of the Hand Hills.

Congratulations to Everett R. Moore, in winning for the first time the national medal, sponsored by the Canada Federal Association, held recently at Hanna.

O. B. Marshall, merchant and horse-racer, Michichi, who was suddenly taken ill and rushed to the Drumheller Hospital in a serious condition toward the end of last month, is reported to be progressing favorably.

Mr. and Mrs. Buckler Linport were visitors in Calgary last week.

Miss Evelyn Grant was a visitor in Calgary last week, and left on Sunday for Vancouver, B.C.

Mr. and Mrs. Fred Anderson, of Banff, Alta.; and Mr. and Mrs. R. A. Bennett, of Lacombe, Alta.; were visitors in Delia for two or three days this week. We understand Mr. Bennett has just recently sold his handsome automobile.

There will be no service at the United Church, Delia, for the first three Sundays of this month, as the pastor, the Rev. T. Taylor and his wife will be away on holiday. A special Delia Service will be held Sunday, August 12th. Everyone is cordially invited to attend, and meet the new minister.

It is now officially announced that national registration will be held on August 12, 20, and 21, between the hours of 8 a.m. and 10 p.m. each day. Registration will be held in the main hall as polling divisions for a general election. Their location will be made known later.

The weather has been generally fair and mostly very warm during the past week. According to the government report, conditions over most of Alberta are good, and

what is generally all loaded on wheat in wagon, color is good and early crops are a filling well. Pastures are luxuriant, and stock feed the ideal condition. Some parts of the province have suffered hail damage from 10 to 100 per cent. No hail has fallen in the Delia district, and everywhere looks fresh and green.

A beautiful moonlight night, and the object of rains falls to help the Red Cross, were the incentive that drew large numbers from Delia and districts north to patronize the bazaar dance held at Art. Carson's barn last Friday night. Special music was rendered by an orchestra composed of Bob, Betty, Stan, Laron, Gene, McKay, and Wm. Linport. Lunch was supplied at midnight, and everyone spent a most enjoyable time. The sum of \$100 and over was realized, and much credit is due the sponsors—Messrs. Jones, Carson, Fulton, Atkins and others, assisted by the many ladies, who were responsible for the evening's success.

Reduction in Storage Rates

Last week the Board of Grain Commissioners at Winnipeg had decided upon a reduction in the maximum storage charges on country elevators and on local elevators at Fort William, Port Arthur and Winnipeg, from 1/100th per bushel per day to 1/150th per bushel per day. This is to go into effect August 1st. The maximum storage rates at terminals on the Pacific coast have been fixed at 1/100th per bushel per day.

Wheat for Live Stock Feed

Alberta farmers retained 8,000,000 bushels of wheat from the crop harvested in 1939 for live stock feed, according to a preliminary report issued by the Dominion Bureau of Statistics.

This figure represents about 6.3 per cent of the total wheat crop harvested last year. From the 1938 crop nearly 6,000,000 bushels, or about 3.4 per cent, were retained to feed live stock.

It is interesting to note that all provinces except Manitoba, Saskatchewan, and Alberta feed a much larger proportion of their annual wheat crop to live stock. About 55 per cent of the total wheat crop of the last season is fed to stock. Nearly 43 per cent of Quebec's crop, 50 per cent of British Columbia's crop, and 70 per cent of the Ontario crop is used for stock feed.

Canada's Grain Handling

"Prairie Sentinel" is the title of an attractive booklet which has just been issued. This booklet deals with the handling of grain in Canada. The functions of the Board of Grain Commissioners are outlined, and details are given concerning the methods which farmers may use in handling their grain at country elevators.

The North-West Live Elevators Association has made available to farmers in outline form information of month value. Copies may be obtained free of charge from any live elevator agent, or by writing to the North-West Live Elevators Association, Winnipeg.

NATIONAL STOCK TAKING NEEDS NATIONAL REGISTRATION

CANADA CALLS upon all her citizens, regardless of nationality, male and female, over 16 years of age, to register on August 19th, 20th, or 21st. Registration offices will be open from 8 a.m. to 10 p.m.

The object of this registration is to ascertain the human resources of the nation so that they may be mobilized to enable Canada to make her maximum effort in the defence of this country and towards the successful prosecution of the war.

Here are the questions you will be asked to answer. The card for women will be similar but subject to certain necessary variations. Study the questions carefully now so that you may be ready to give full and complete answers to the registration officer.
